

## HOW TO BREAK THE VICIOUS CIRCLE

Just a small contribution from every associate everytime He/She is served by the Cooperative. A mere 1% of the value of service rendered would be sufficient contribution to the Cooperative movement!

This accruing amount-formed by small parts-will be properly used to finance in a global scale the integration scheme so badly needed by the system, to foster welfare for associates and indirectly for the human kind.

*Una interpretación para darle a la estructura cooperativa los medios para su auto-desarrollo, será la Alianza Cooperativa Internacional. Llevar a las federaciones regionales.*

## HOW TO STOP THE LIMITED DEVELOPMENT

### OF THE COOPERATIVE SYSTEM

The pentup 1% contribution scheme originating in the developing countries of the world, would serve three major objectives:

1. A 0,2% is left in the contributing cooperative for education and promotion; 0,8% will be transferred to the new national foundation
2. A 0,4% for each service rendered will be used in education, training and promotion in all levels of the vertical integration diagram.
3. A 0,4% to develop a Cooperative foundation to foster the movement in each country. This foundation would contribute 1/4% to the global cooperative foundation -I. C. A. level. *0.2%*

*100% de la suma de los 0,2%*
